## TECHNOLOGIES

JavaScript, ES6, React, Router, REST API, HTML, CSS, Sass, RWD, Webpack, Gulp, Firebase, Git, Styled, Components, Bootstrap, Material UI, Semantic UI, Linux, Wordpress.

## LANGUAGE

English - C1

## PROFILE

I am a junior web designer with a years worth of practical experience within the IT industry. In my work I am focused on further expanding my knowledge and abilities. While working with the React JS language I have a self imposed goal of mastering its library and resources although I am open to learning new things and incorporating them into my workflow. I am a team player and eager to start new challenges.
